

## LPG WEEK – COVID-19 UPDATE

29<sup>th</sup> November 2021

Dear LPG Week participant,

We are just days away from the highly anticipated LPG Week in Dubai.

Following the outbreak of a new COVID-19 variant, we would like to advise you that current WHO guidelines do not recommend stopping travel, but are to continue with recommended measures such as masks, distancing etc. Be reassured that LPG Week is fully COVID-19 compliant with required social distancing, mandatory masks and sanitising gel stations. All surfaces are regularly disinfected, and our social and networking events are outdoors. PCR testing for participants is also available within walking distance from the World Trade Centre. Consult the COVID-19 up-to-date advisory section in place during LPG Week [www.lpgweek.com/covid-19-advisory-section](http://www.lpgweek.com/covid-19-advisory-section).

For the first time in some two years this will be the opportunity to unite, network and get 'back to business'. I imagine, that like me, you are very much looking forward to finally connecting again face-to-face.

We of course continue to monitor the situation, are in close contact with the Dubai authorities, and will advise you if the situation changes.

I look forward to seeing you next week.

Best regards,

James Rockall  
CEO & Managing Director  
World LPG Association
